

Welcome to SAP Inside Track NYC 2017

SAP Leonardo Innovation Center

SAP Inside Track New York City 2017

KICKOFF AND HOUSEKEEPING

DEREK P. LORANCA

AETNA/SAP MENTOR/ASUG VOLUNTEER

SAP INSIDE TRACK
NEW YORK CITY

What is SAP Inside Track?

Local grassroots community events, assisted by SAP Mentors (if local)

Supported by the SAP Community Network

Oftentimes Inside Tracks are sponsored by SAP or others in the SAP ecosystem

- Allows for dedicated space, catering and other cool things

You can create your own Inside Track or volunteer to help make SITNYC 2018 even bigger and better

- Find John Astill or myself to volunteer with planning (or sponsoring)

Check out the [Inside Track homepage](#) for more info

What are SAP Mentors?

Anyone heard of the SAP Mentor program?

SAP Mentors are the top community influencers of the SAP Ecosystem. Most of the ~120 mentors work for customers or partners of SAP. All of them are hands-on experts of an SAP product or service, as well as excellent champions of community-driven projects.

Want to find out more? Talk to one of the Mentors in the room!

Or go to sapmentors.sap.com for details.

Cool things about SAP Mentors:

Agenda

Time	Session	Presenter
9:00am - 9:15am	Welcome and Introductions	Derek Loranca
9:15am - 10:00am	Introduction to SAP Data Hub, positioning in a Big Data Landscape, including a quick demo	Henrique Pinto
10:15am - 11:00am	Introduction to Deep Neural Network. Explaining the basic terms and design of neural networks with examples and showing a demo of a DNN with backpropagation using either C# or Python.	Christoph Rein
11:15am - 12:00pm	Open Source Blockchain	Greg Misiorek
Noon - 1:00pm	Lunch and Tour: The North American Innovation Factory builds cutting edge demos with SAP Technology. We get to build some fun hardware Art of the Possible demos that are ever present in the Leonardo Lab. We will tour the Lab taking in demos of Blockchain, IoT and Machine Learning.	John Astill Sarah Hegazy
1:00pm - 1:45pm	Demand Driven Supply Chain with Leonardo's Digital Supply Chain	Dhaval Desai
2:00pm - 2:45pm	Running MRP Live in S/4HANA This section provides an overview of the performance optimizations for MRP when running on a HANA database. We will understand the changes in the classic MRP and also the new MRP Live, designed to get the best performance of a HANA database. At last, we will see the simplified MRP scenarios for S/4 HANA and the new Demand Driven MRP, which is available in S/4HANA 1709.	Caetano Almeida
3:00pm - 3:45pm	How SAP IT runs SAP Cloud Platform/Mobile applications	Asim Mian
3:45pm-4:00pm	Wrap-Up	

Housekeeping

Wireless Access

Refreshments

Restrooms

Breaks/Lunch

Other stuff...

Thanks all around...

The local SAP Next-Gen team for planning assistance

Special thanks Ann Rosenberg and the SAP Next-Gen team for helping secure the Maker Space

SAP Mentor program team (Jason Cao & Kati Fischer)

John Astill

All of our speakers & attendees

Thanks again!
